## Introducing GTEC® Trade – a new range of Jointing Compounds and accessories.

It's quick and easy for jointers to select and order the products they want in branch, GTEC Trade manages all stock and delivery requirements, leaving you with nothing to worry about other than taking the order and securing the sale!

From 2 and 3 coat applications GTEC Trade offers the Jointer everything they need to complete a high quality finish job.

### GTEC® Trade Joint Filler

GTEC Trade Joint Filler is a setting compound suitable for bedding and filling joints.

- 3 coat application
- 90 minutes set time
- For bedding & filling tapes

### GTEC® Trade Joint Cement

GTEC Trade Joint Cement is an air-drying, low shrinkage joint cement which is ideal for both bedding tapes and finishing joints by hand or machine.

- 3 coat application
- Low shrinkage
- Quick to mix
- Easy to sand

### GTEC® Trade Ready-Mix

GTEC Trade Ready-Mix is a light-weight, low shrinkage, easy to sand, ready-mixed joint cement. It is ideal for both bedding and finishing joints by hand or machine.

- 3 coat application
- Smooth application
- Easy to sand
